Hargrave and Hargrave, Inc.  
Foundation Repair  
P.O. Box 1238  
Wylie, Texas 75098

Dear Sirs:

I want to say how very happy I am with the service and performance of your team. I truly appreciate with their efficiency, professionalism and recommendations. They also left the premises as clean or cleaner than when they got here that morning.

One of the reasons that I tracked your company down was because of the first time I used your services when I bought my house in the late 70's. My father researched to find a professional and reasonable repair service company as he was an insurance adjustor and knew what criteria he wanted. With his direction and your prior performance/service I felt confident that I could trust choosing Hargrave and Hargrave to once again to provide the required repairs that I needed.

Thank you very much.

Yours very truly,

  
Joan F. Jones

  
Dallas, Texas 

They came in full preparation

7 ea. Helical Piers with GH Brackets

The team

I do this to  
show friends +  
family so y'all  
get one too

More efficient from the old days for sure

This can be done till they get closer towards utility room. Then use portable Unit.

**This is where men would push when told and inside man measured.**

**When they left you would not have known they were here.**

**They placed dirt so that water would drain downwards.**
